

Use vector art whenever possible to achieve highest quality print. If not possible, raster art should be placed at 100% and set to 300dpi

Vector example (ie. ai, eps) Raster example (ie. jpg, png)

HF4
 Document Trim size should be 8.2269" W x 6.28" H
 Document Bleed should be 0.125" beyond trim
 Delete "Production Notes" layer prior to sending art

 Indicates 0.125" document bleed area

 Indicates which panel side to extend art minimum of 1/16" beyond cut/fold

 Miter panel bleeds in these areas

PROPRIETARY DESIGN
 Do not duplicate, transfer, reproduce or alter

- This is an Adobe Illustrator pdf
- Outline all fonts and make barcodes 100% black only
- Package all links and supply as compressed .zip
- Include 0.125 in. bleeds beyond outer die edges
- Do not colorize art with spot colors dedicated to the die
- Avoid placing critical art or copy on crossover panels
- Be sure to use Document Color Mode > CMYK
- Do not use "Registration" color
